

# YEAR 12 2006

## STUDENT DESTINATIONS

### Western Cape College

#### Introduction

This report is based on the findings of the Queensland Government *Next Step* survey, which targeted all students who completed Year 12 and gained a Senior Certificate or Certificate of Post-Compulsory School Education in 2006, whether they attended a Government, Catholic or independent school, or a TAFE secondary college. The Office of the Government Statistician conducted the survey between 2 April and 19 May 2007, approximately six months after the young people left school. Responses were predominantly collected via computer aided telephone interview with a paper-based survey collected from a small number of students for whom telephone details were not available.

The survey results were compiled and reported on by the Performance Monitoring and Reporting Branch of the Department of Education, Training and the Arts.

The statewide and regional reports of the *Next Step* survey can be located at the *Next Step* website at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep)

#### Response rate for Western Cape College

Table 1 below reports the response rate for Western Cape College. It expresses the number of respondents from this school, as a percentage of all Year 12 completers attending Western Cape College in 2006.

It has not been possible to ascertain how representative these responses are of all students at this school.

**Table 1** Survey response rate

Number of respondents	Number of students who completed Year 12	Response rate (%)
17	19	89.5

#### Definitions of main destinations

The pathways of Year 12 completers were categorised into ten main destinations. Respondents who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the statewide report at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep)

#### Summary of findings

In 2007, 10 young people who completed their Year 12 at Western Cape College in 2006 continued in some recognised form of education and training in the year after they left school.

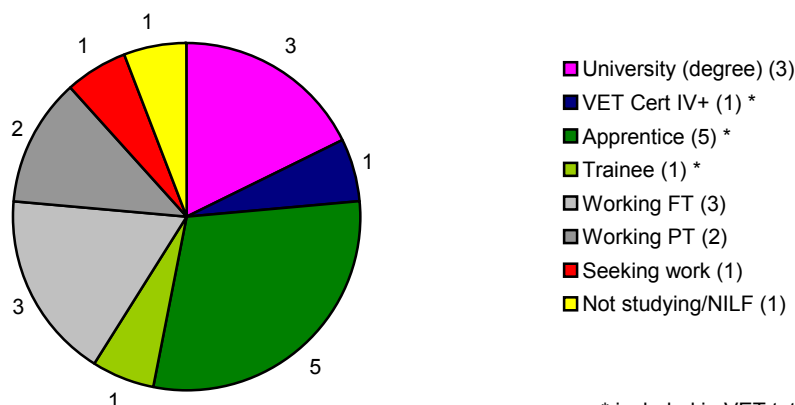

The most common study destination was apprenticeships (five respondents). The combined VET study destinations accounted for seven respondents, including one in campus-based VET programs at Certificate IV level or higher.

Three respondents entered degree-level programs at university, while one other Year 12 completer commenced employment-based training as a trainee.

There were no respondents from this school who deferred a tertiary offer in 2007.

Seven respondents did not enter post-school education or training, and were either employed (five), seeking work (one) or neither studying nor in the labour force (one).
